

ATTENTION VILLAGE RESIDENTS:

Over the last several months there have been a lot of meetings/discussions regarding the brush pick-up currently done weekly by village staff. Changes in the current brush pick-up policy have been implemented due to the upcoming construction at the wastewater treatment facility, illegal dumping (in which the Village could face extensive fines) and excessive amounts which are not incidental being placed out for pick-up.

At the August 13, 2018 Board of Trustee Meeting the recommendation by the Public Safety & Health Committee for brush pick-up and burn site were:

- Pickup once per month on the 1st Monday
- Create a list of companies that cut up and remove trees that can be provided to residence as requested.
- All downed trees will be removed at owner's expense.
- The brush drop off site will be locked at all times.
- If a resident requests to take their brush down to the brush drop off site, they can set up an appointment with the Village staff to access the site accompanied by a Village worker.
- Christmas trees to be picked up by the Village after January 1st.

This action was approved by the board.

The Village Board will monitor this process over the next several months and may adjust as required.

If you know of companies that provide tree removal service, please contact the Village Office at 608-924-5881 and provide the contact information, we can then add their information to the list.

Once the list is completed, it will be available to you at the Village Office, the Village Website and the Village Facebook page.

Thank you for understanding.
