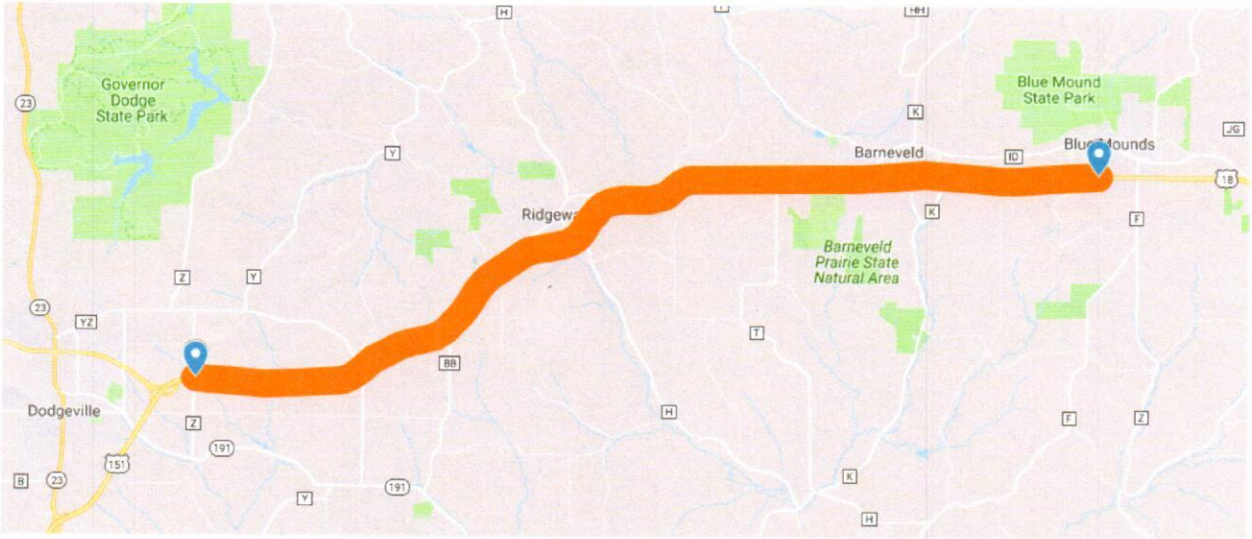
Dodgeville – Mount Horeb
USH 151 to E County Line
USH 18, Iowa County

Information Sheet
Local Resident and Business Meeting
Monday June 3, 2019
Ridgeway Town Hall

Project Limits:



The purpose of the project is to base patch the existing concrete and provide an asphalt overlay to the existing pavement surface that has exceeded its service life. The project begins near County Highway Z and extends 13.65 miles to the east county line. Additional improvements include replacement of existing beam guard end terminals, new pavement markings, and a concrete deck overlay of the westbound bridge over Jones Street.

During construction, the speed limit will be reduced to 55mph in the construction zone. Construction work will be completed under single lane closures. The ramps at CTH BB and CTH ID will be closed for a day when work affects each ramp location. If the contractor needs to close your driveway for a short period of time, they will be in contact with you.

The project is anticipated to begin on Monday June 10th. In 2019, the contractor plans to work from June through September to complete the westbound lanes from Ridgeway to Blue Mounds. Work in the eastbound lanes is planned from September through November 2019 from Ridgeway to Blue Mounds. The section between Dodgeville and Ridgeway will begin in the spring of 2020 and be completed by mid-summer.
